Goal 3

Rideable Type 4

Trip Duration 5

Rush Hours 6

Seasonality 7

Recommendations 8

Thank You 9

Appendix 10

GOAL

Maximizing the number of annual memberships

Difference

How do annual members and casual riders use Cyclistic bikes differently?

Motivation

Why would casual riders buy Cyclistic annual memberships?

Next steps

How can Cyclistic use digital media to influence casual riders to become members?

RIDEABLE TYPE PREFERENCES

Members prefer classic bikes.

***65.4%** of members prefer classic bikes.

***50.6%** of casual riders prefer classic bikes.

TRIP DURATION

Casual riders

1.93 times longer

Members

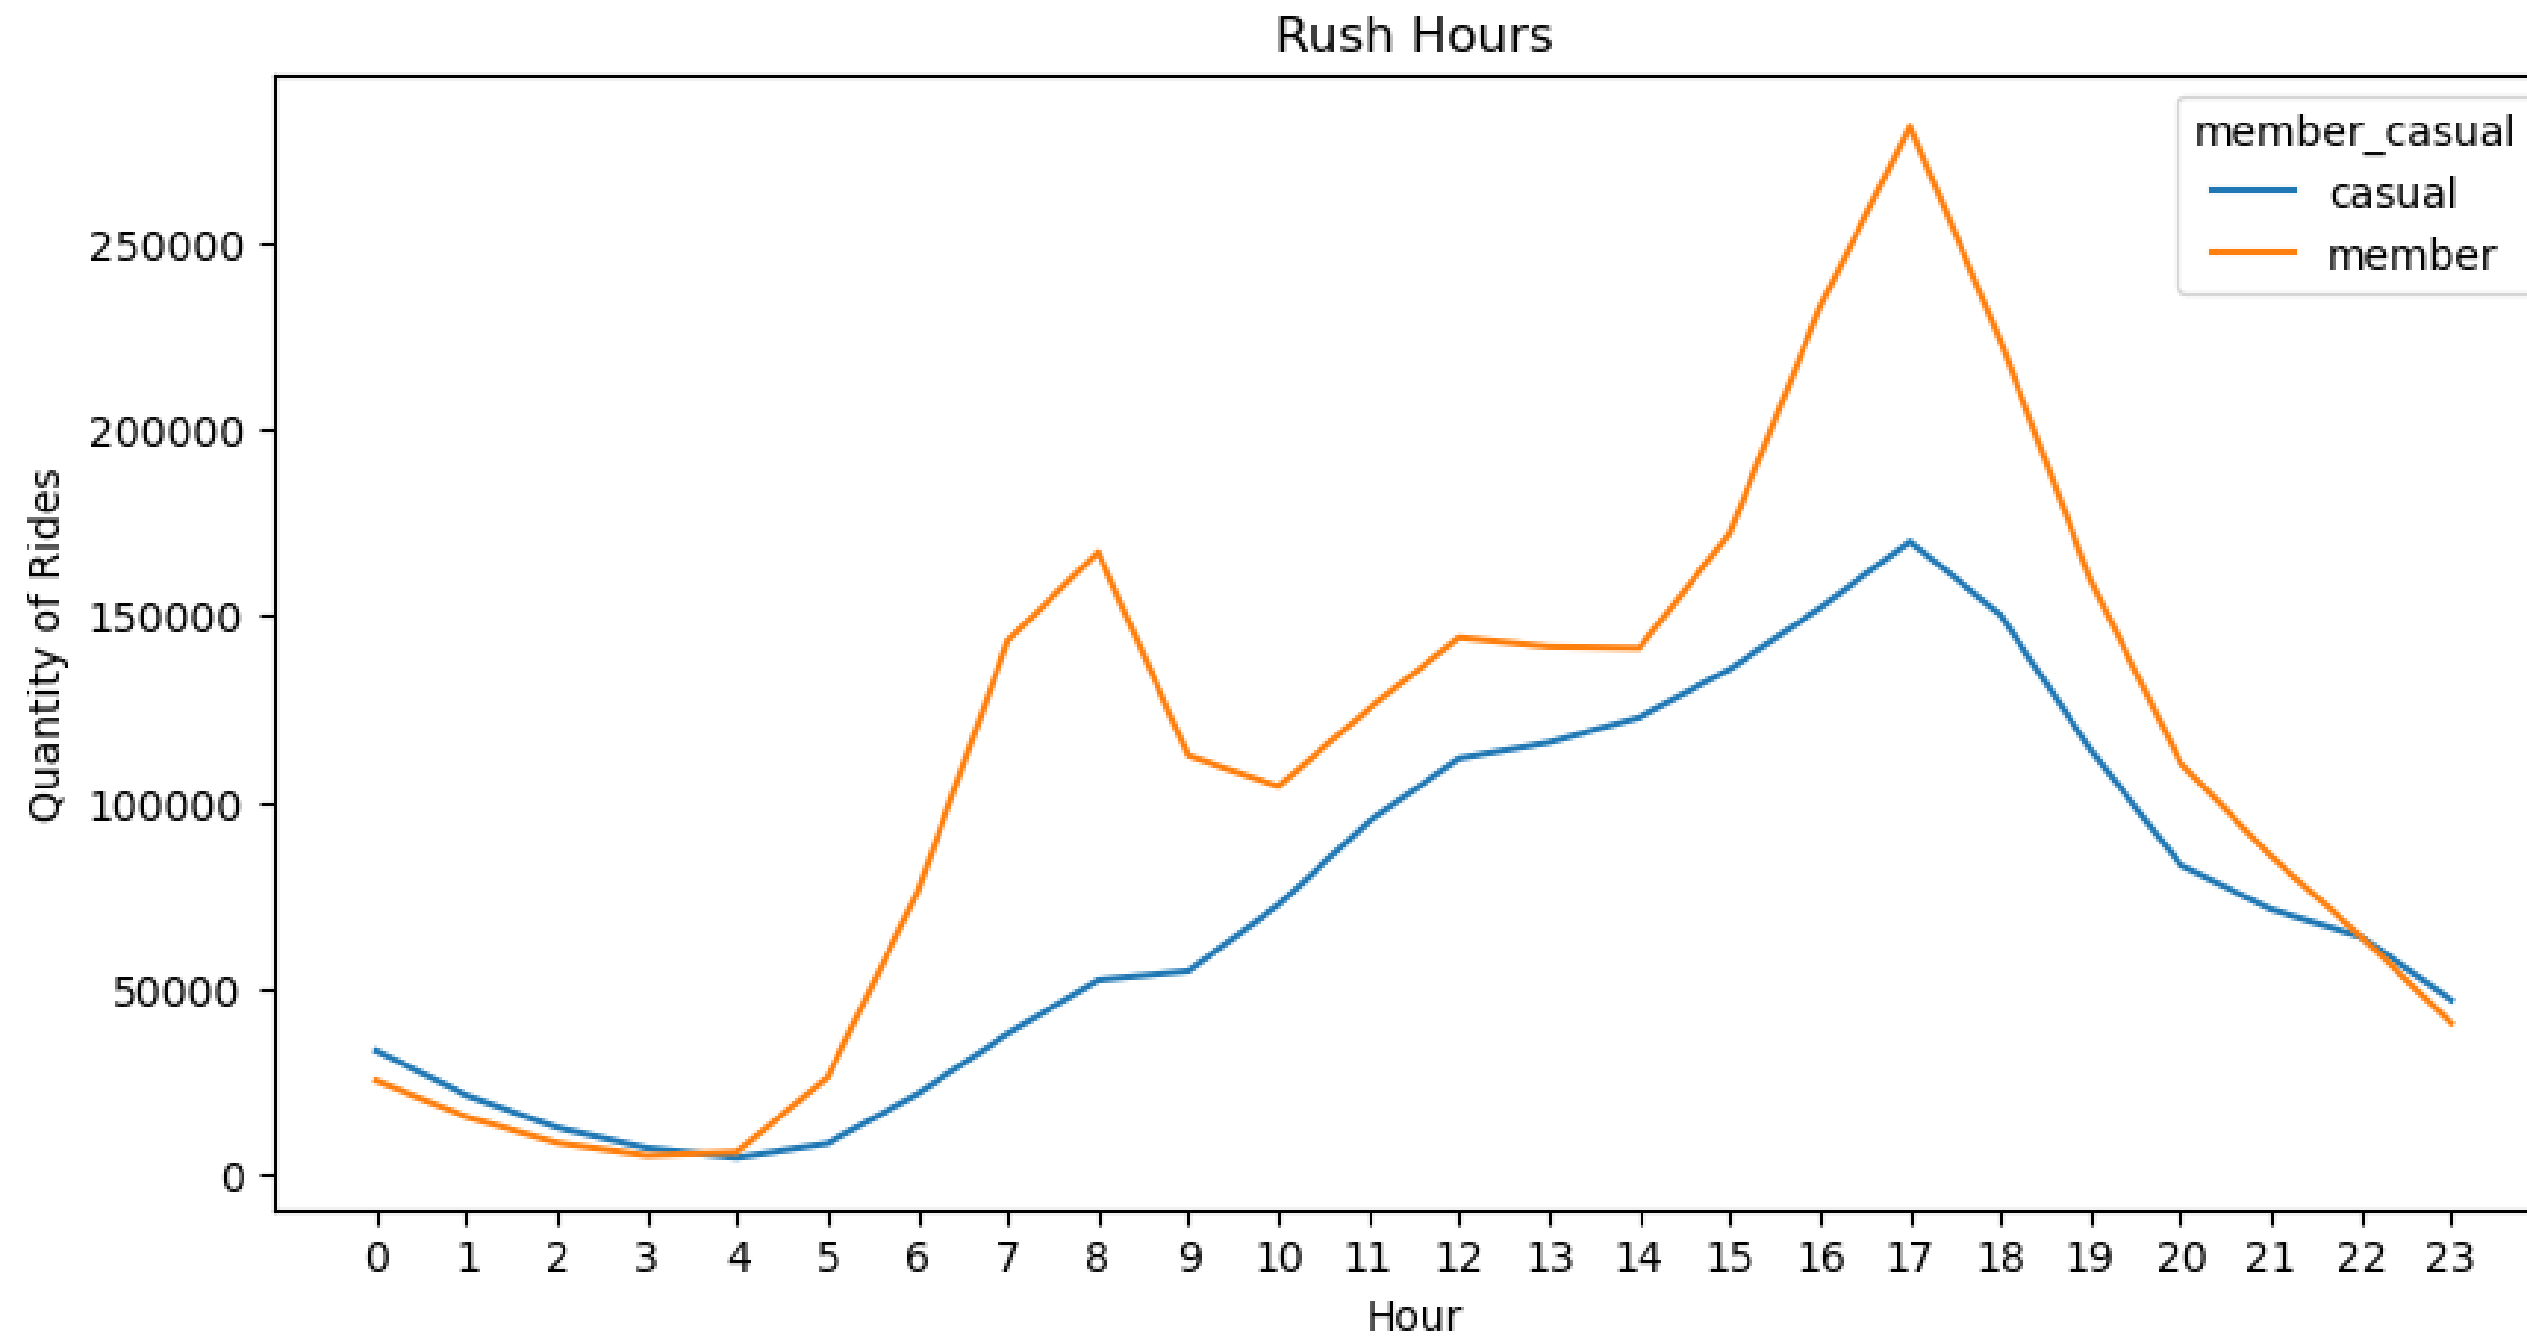

*Casual riders' trips are 1.93 times longer than members' trips (based on time).

*Members and casual riders have different preferred routes.

HYPOTHESIS: Casual riders and members have different goals (customer survey is necessary for any conclusions).

QUESTION FOR FURTHER ANALYSIS: Do members need high speed trips?

RUSH HOUR

HYPOTHESIS: Members use bicycles to go to work (because rush hour is 9 AM and 5 PM).

SEASONALITY

HYPOTHESIS: Bike sharing is a seasonal business.

RECOMMENDATIONS

1

Summary: Members prefer short trips on classic bikes during rush hour in the warm season.

2

Next steps: Getting info about the goal for different types of riders in order to confirm the hypothesis (using survey).

3

Questions for further analysis: Data about speed is required to analyze the differences in trip style.

**THANK YOU FOR YOUR
ATTENTION!**

Any Questions?
